Administrative family member	<a href="#">GRD13254AU: Metod for manufacturing screws</a>					
Status	Active					
Active family members	6					
Publication status	Published					
<b>INFORMATION OF ADMINISTRATIVE FAMILY MEMBER</b>						

The status is defined according to the information on case level:

### Secret

Less than 18 months from the priority\* and no Publication date or number or Registration date or number exists on any of the cases

### Potentially published

More than 18 months from the priority\* and no Publication date or number or Registration date or number exists on any of the cases

### Published

Publication date or number or Registration date or number exists on any of the cases

### \*Priority

The earliest priority of the family. Either the earliest date in the priority field or the earliest filing date in case no priority date found.

### Publication prevented

Publication status  Published  Publication prevented

In case the applications are cancelled or abandoned to prevent any publications of the family, Publication prevented tick box can be selected in the edit mode of the family record. When Publication prevents is selected the publication status is updated accordingly.
